

# How to cancel my membership?

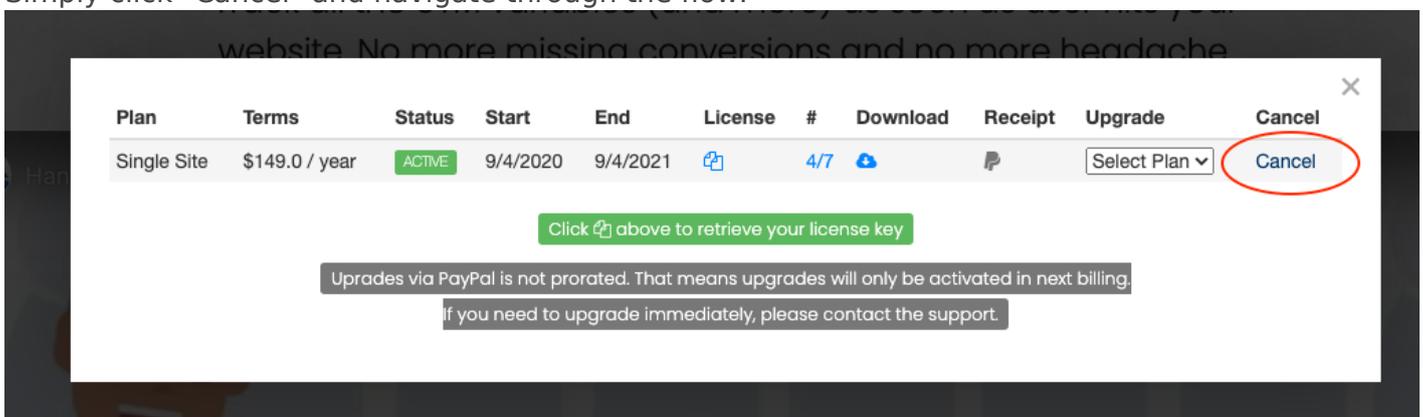

Login to your account at [utmgrabber.com](https://utmgrabber.com)

After logging in, click your name upper right corner of the screen and click "My Downloads"

## Find the Plan you want to cancel

Simply click "Cancel" and navigate through the flow.

The screenshot shows a software license management interface. At the top, there is a table with columns: Plan, Terms, Status, Start, End, License #, Download, Receipt, Upgrade, and Cancel. The first row shows a 'Single Site' license for '\$149.0 / year' with a status of 'ACTIVE', starting on '9/4/2020' and ending on '9/4/2021'. Below the table, there is a green button that says 'Click [icon] above to retrieve your license key'. A grey box contains the text: 'Upgrades via PayPal is not prorated. That means upgrades will only be activated in next billing. If you need to upgrade immediately, please contact the support.' Below this is a large pink dialog box with the text: 'I accept that I'll lose access to HandL UTM Grabber V3 plugin. And the plugin will be disabled from all of my domains. Would you like to continue cancellation?'. There are two buttons: a blue 'No, stop' button and a red 'Yes, cancel' button. The 'Yes, cancel' button is circled in red.
