

Disable Server Side Tracking

The "Disable Server Side Tracking" feature allows users to disable server-side tracking if they believe it is adversely impacting their tracking due to server-side caching. This feature ensures that tracking relies solely on client-side tracking.

Clicking the checkbox will disable the server side tracking

Domain

If you are using subdomains and lock all the cookies to parent domain. You can do so here. e.g. `.domain.com`

Enable GDPR

☐ Check if you'd like to be complaint with EU's GDPR. This will display HandL's consent bar in your website. Our plugin won't collect any data until consent is given. If you are using other consent plugins, you do not need to enable this.

Integromat Webhook URL

Contact Form 7, Ninja Form, Gravity Form, Fluent Form, Thrive Leads, Formidable and WP Forms supported. See [here](#) for documentation.

Disable Server Side Tracking

☒ Disable server side tracking
If you leverage server side caching and you think your tracking is impacted adversely, we recommend you try disabling server side tracking to fully rely on client side tracking.
