I am with FlyWheel

If you are on FlyWheel, you need to contact FlyWheel support and let them know that you want to whitelist the following **QUERY ARGS & COOKIES** to prevent caching.

COOKIES

utm_campaign utm_source utm_term utm_medium utm_content gclid first_utm_campaign first_utm_source first_utm_term first_utm_medium first_utm_content handl_original_ref handl_landing_page handl ip handl_ref handl_url organic source gaclientid //and all the custom parameters created by you

QUERY ARGS

utm_campaign
utm_source
utm_term
utm_medium
utm_content
gclid
//and all the custom queries you are capturing

Usually, this process takes couple of hours to complete. Hoever, you may want to wait longer for changes to completely take effect.

Still having problems? Let us know, clicking the chat bubble at the bottom right of the page.
