## 1.Change values in the url and refresh the page.

The screenshot shows a web browser with the URL `localhost/wordpress/?utm_source=changedsource&utm_medium=changedmedium&utm_campaign=changedcampaign`. The URL parameters are highlighted with colored lines: `changedsource` in blue, `changedmedium` in green, and `changedcampaign` in red. The browser's Application tab is open, showing a list of storage items. The `utm_campaign` and `utm_medium` items are highlighted with red and green lines, respectively, matching the URL highlights. The `utm_source` item is also highlighted with a blue line. The page content includes a navigation menu with 'About', 'Blog', and 'Contact' links, and social media icons for Twitter, Instagram, and Email.
