

Setting the Cookie Duration

Video Tutorial

please click right to the video below and open link in new tab

[Adjust Cookie Time as You Wish](#)

1. Click UTM and set the cookie duration below the HandL Options tab

The screenshot shows the WordPress dashboard with the 'HandL UTM Grabber' settings page open. The 'HandL Options' tab is selected. The 'Cookie Duration' field is highlighted with a red box, showing a value of 90 days. Other settings include 'Append UTM' (unchecked), 'Zapier Webhook URL' (empty), 'Enable GDPR' (checked), and a 'Save Changes' button.

You can see the expiration date on developer console

Application
