

# Borlabs Cookie Integration

HandL UTM Grabber / Tracker How to collect and track UTM variables via Borlabs Cookie  
Integration step by step

- [Make HandL UTM Grabber compatible with Borlabs](#)
- [Add HandL UTM Grabber Support in Borlabs v3](#)

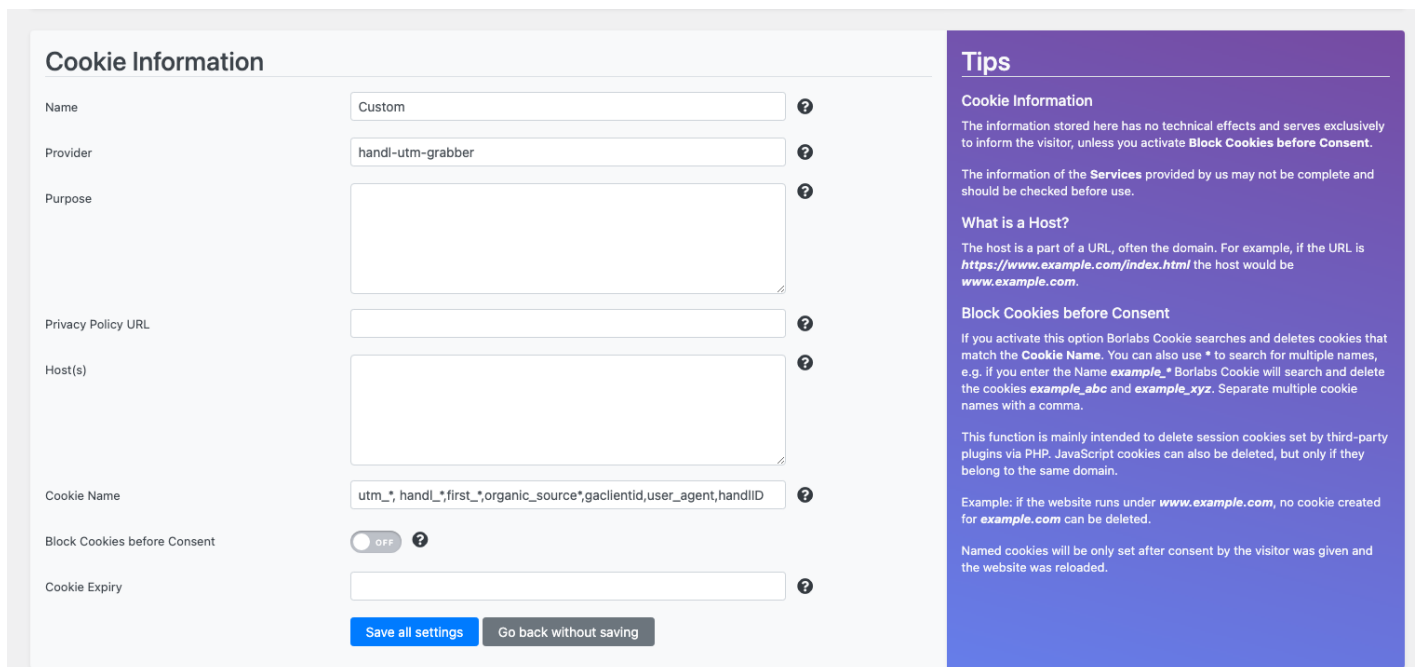

# Make HandL UTM Grabber compatible with Borlabs

First create a custom group under Marketing

Add following entries under Cookie Name section

```
utm_*, handl_*,first_*,organic_source*,gaclientid,user_agent,handlID
```

This will block all the HandL UTM Grabber cookies before proper consent given

# Add HandL UTM Grabber Support in Borlabs v3

Since version 3, Borlabs has updated its user interface and the method for adding cookie exceptions. Here, we will explain how you can do this in version 3.

Click on "Services" under "Consent Management" in Borlabs as shown here.

The screenshot displays the Borlabs Cookie management dashboard. The top navigation bar includes links for Dashboard, Settings, Dialog & Widget, Consent Management (highlighted), Blockers, Scanner, Library, and System. A dropdown menu under 'Consent Management' shows options: Services, Service Groups, IAB TCF, Manage Vendors, Settings, Providers, and Consent Logs. The 'Services' option is selected, leading to the 'Edit: HandL UTM' page. A red message states: 'Please activate your license key first. [Click here](#) to enter your license key.' Below this is a green confirmation message: 'Saved successfully.'

The 'Service Settings' section for 'handl-utm-grabber' includes the following fields:

- ID:** handl-utm-grabber
- Shortcode:** [borlabs-cookie id="handl-utm-grabber" type="service"]
- Opt-out Shortcode:** [borlabs-cookie id="handl-utm-grabber" type="btn-sv"]
- Status:** Enabled (toggle switch)
- Position:** 1
- Language:** en

A red warning message at the bottom states: 'Your license has expired. This feature is not available with an expired license. [Click here](#) to log into your account and purchase a license renewal.'

On the right side, a sidebar titled 'Things to know' contains sections for 'Shortcode' and 'Opt-out Shortcode'.

Fill out the form like this

ID: handl-utm-grabber (this is very crucial make sure you use this verbatim)

Status: On

Position: 1

Language: en
