HandL UTM Grabber / Tracker How to collect and track UTM variables via Complianz step by step

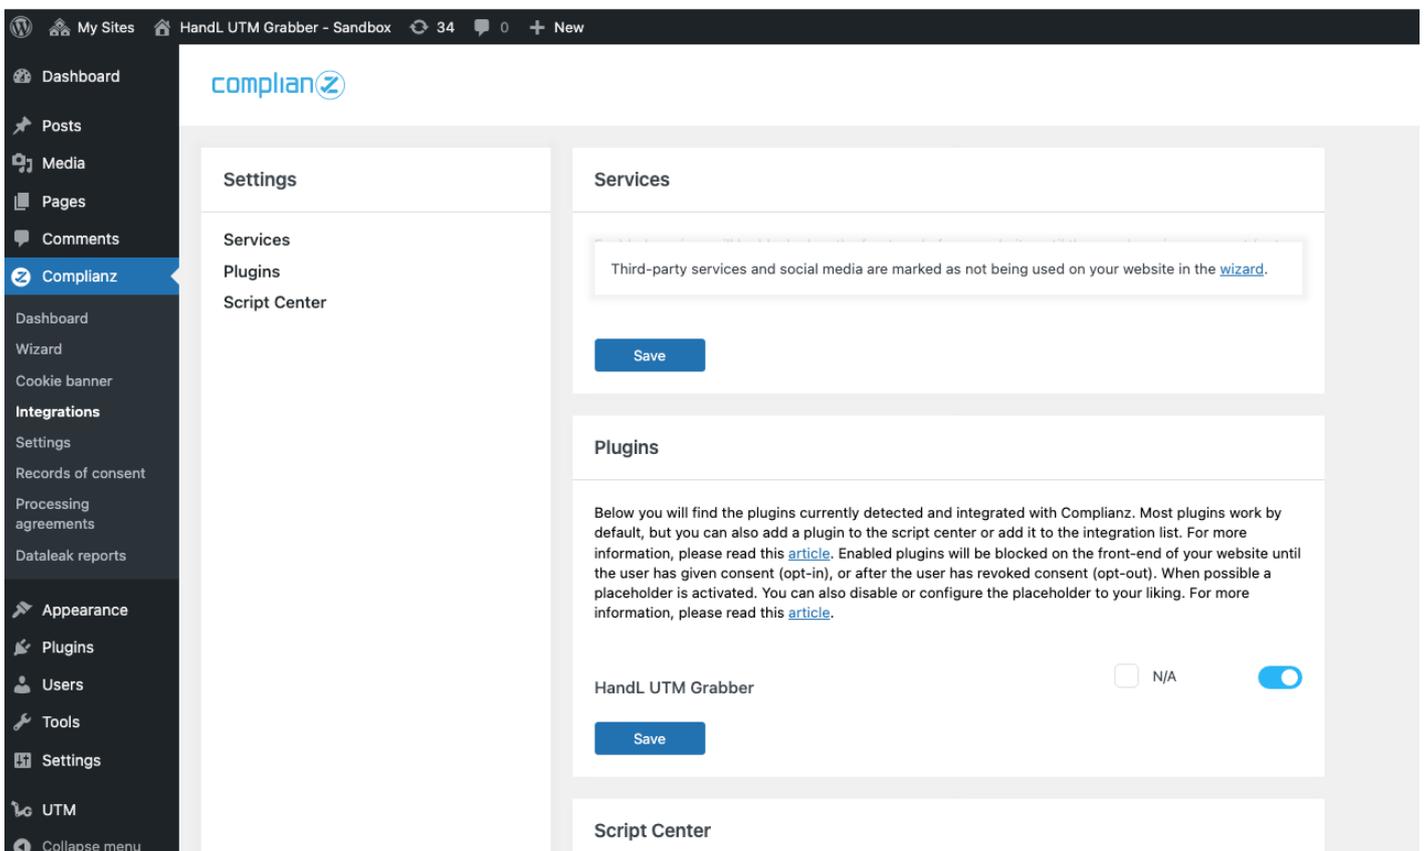

- [Integrate HandL UTM Grabber with Complianz for GDPR](#)

Integrate HandL UTM Grabber with Complianz for GDPR

Enable HandL UTM Grabber in Complianz

Under Complianz > Integrations

If you would like to prevent collecting Cookies for HandL UTM Grabber until a consent given, enable our plugin in Complianz.

The screenshot shows the Complianz dashboard interface. On the left is a dark sidebar menu with options like Dashboard, Posts, Media, Pages, Comments, and Complianz (highlighted). Below Complianz are sub-menus for Dashboard, Wizard, Cookie banner, Integrations, Settings, Records of consent, Processing agreements, and Dataleak reports. Further down are Appearance, Plugins, Users, Tools, Settings, UTM, and Collapse menu. The main content area has the Complianz logo at the top. It is divided into three sections: 'Settings' (with sub-items Services, Plugins, Script Center), 'Services' (containing a message about third-party services and a 'Save' button), and 'Plugins' (containing a detailed explanation of plugin functionality and a table of detected plugins). The 'HandL UTM Grabber' plugin is listed with a checkbox labeled 'N/A' and a toggle switch that is currently turned on. A 'Save' button is located below the plugin list. The 'Script Center' section is partially visible at the bottom.

That's it. There will be no COOKIES until consent is given.

NOTE: Our plugin listed as "Marketing" category in Complianz. Therefore, it requires "Marketing"

consent before it starts tracking user.
