

Formidable Form Integration

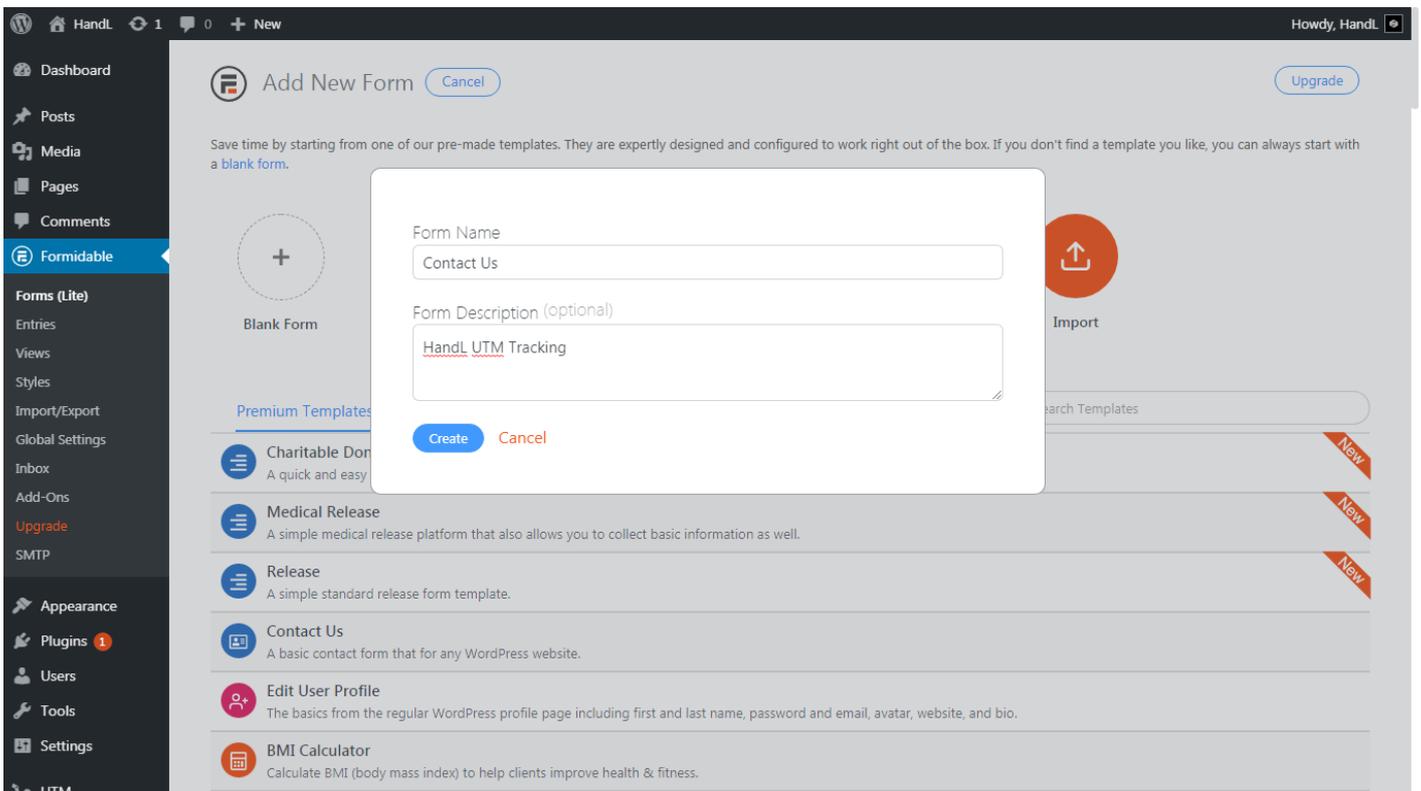

1. Open Formidable and click "Add New"

2. Choose a form type

3. Name your form and type the description you want

4. Choose "Hidden" in the left menu

The screenshot shows the 'Build' interface for a 'Contact Us' form. The 'Advanced' settings for a 'Hidden Field' (ID 13) are highlighted with a red box. The field key is 'utm_campaign' and the field type is 'Hidden'. The 'Update' button in the top right corner is also highlighted with a red box.

7. Copy the shortcode of the form

The screenshot shows the 'Forms' dashboard. A table lists the forms, and the 'Shortcodes' column for the 'Contact Us' form (ID 2) is highlighted with a red box, showing the shortcode '[formidable id=2]'.

ID	Form Title	Entries	Key	Shortcodes	Date
2	Contact Us	0	contact-us	[formidable id=2]	2019/01/24

8. Edit your form page

WordPress admin dashboard showing the Pages section. The page titled "Form" is selected and being edited. The page content area is empty, showing only the title "Form" and the author "HandL". The date is "Published 2020/09/19 at 1:44 pm". The URL in the address bar is localhost/wordpress/wp-admin/post.php?post=12&action=edit.

9. Paste the shortcode and update the form

WordPress editor showing the "Form" page. The page content area is empty, showing only the title "Form" and the author "HandL". The date is "Published 2020/09/19 at 1:44 pm". The URL in the address bar is localhost/wordpress/wp-admin/post.php?post=12&action=edit.
