

JotForm UTM tracking via iframe embed

HandL UTM Grabber V3 integrates with JotForm very easily.

After defining the variables in the form similar to the one below picture.

The screenshot displays the JotForm Form Builder interface. The top navigation bar includes the JotForm logo, 'Form Builder', and tabs for 'BUILD', 'SETTINGS', and 'PUBLISH'. The 'BUILD' tab is active, showing a form titled 'Form' with a green 'Submit' button. The form contains an 'Email' field with a placeholder 'example@example.com' and three 'Type a question' text input fields. The left sidebar lists 'Form Elements' under 'BASIC' and 'WIDGETS' categories. The right sidebar shows 'Field Details' for the selected 'Type a question' field, including a 'UNIQUE NAME' field with the value '{ utm_campaign|'. The 'Field Details' section also includes options for 'Read-only', 'Shrink', 'Hide field', and 'Field Details'.

Copy paste the embed code from JotForm to your WordPress

BUILD SETTINGS PUBLISH

QUICK SHARE
Direct form link and social share.

EMBED
Various webpage embed options.

ASSIGN FORM
Assign your forms to others.

EMAIL
Reminders and instant sharing.

PREFILL
Pre-populate your forms.

IFRAME
Use this code in order to embed your form in an iFrame within your page.

```
<iframe id="JotFormIFrame-231616703502144" title="Clone of NEW EG Mentorship Application (Testing for AI - Please do not use)" onload="window.parent.scrollTo(0,0)" allowtransparency="true" allowfullscreen="true" allow="geolocation; microphone; camera" src="https://form.jotform.com/231616703502144" frameborder="0" style="min-width:100%;max-width:100%;height:539px;border:none;" scrolling="no" > </iframe> <script type="text/javascript"> var ifr = document.getElementById("JotFormIFrame-231616703502144"); if (ifr) { var src = ifr.src; var iframeParams = []; if (window.location.href && window.location.href.indexOf("?") > -1) { iframeParams = iframeParams.concat(window.location.href.substr(window.location.href.indexOf("?") + 1).split("&")); } if (src && src.indexOf("https://form.jotform.com/") < 0) { src = "https://form.jotform.com/" + src; } ifr.src = src + "?" + iframeParams.join("&"); }
```

COPY CODE

It will be something like this: simply copy and paste this into your WordPress editor or page builder.

```
<iframe id="JotFormIFrame-YOURJOTFORMID" title="Form" onload="window.parent.scrollTo(0,0)"
allowtransparency="true" allow="geolocation; microphone; camera; fullscreen"
src="https://form.jotform.com/202977053711051" frameborder="0" style="min-width:100%;max-
width:100%;height:539px;border:none;" scrolling="no" > </iframe> <script
src='https://form.jotform.com/s/umd/latest/for-form-embed-handler.js'></script>
<script>window.jotformEmbedHandler("iframe[id='JotFormIFrame-YOURJOTFORMID'",
"https://form.jotform.com/");</script>
```

After this code, copy and paste the code below. Ensure you replace `YOURJOTFORMID` with your form ID (as shown above).

```
<script>
setTimeout(() => {
  if (typeof(utms_js) == 'object'){
    var ifr =
document.querySelector("iframe[id='JotFormIFrame-YOURJOTFORMID'")
    var iframeParams = [];
    iframeParams.push( jQuery.param(utms_js) )
    var src = ifr.src;
    ifr.src = src + "?" + iframeParams.join('&');
  }
}, "500");
</script>
```
