

# WP Forms Integration

HandL UTM Grabber / Tracker WPForms Integration step by step

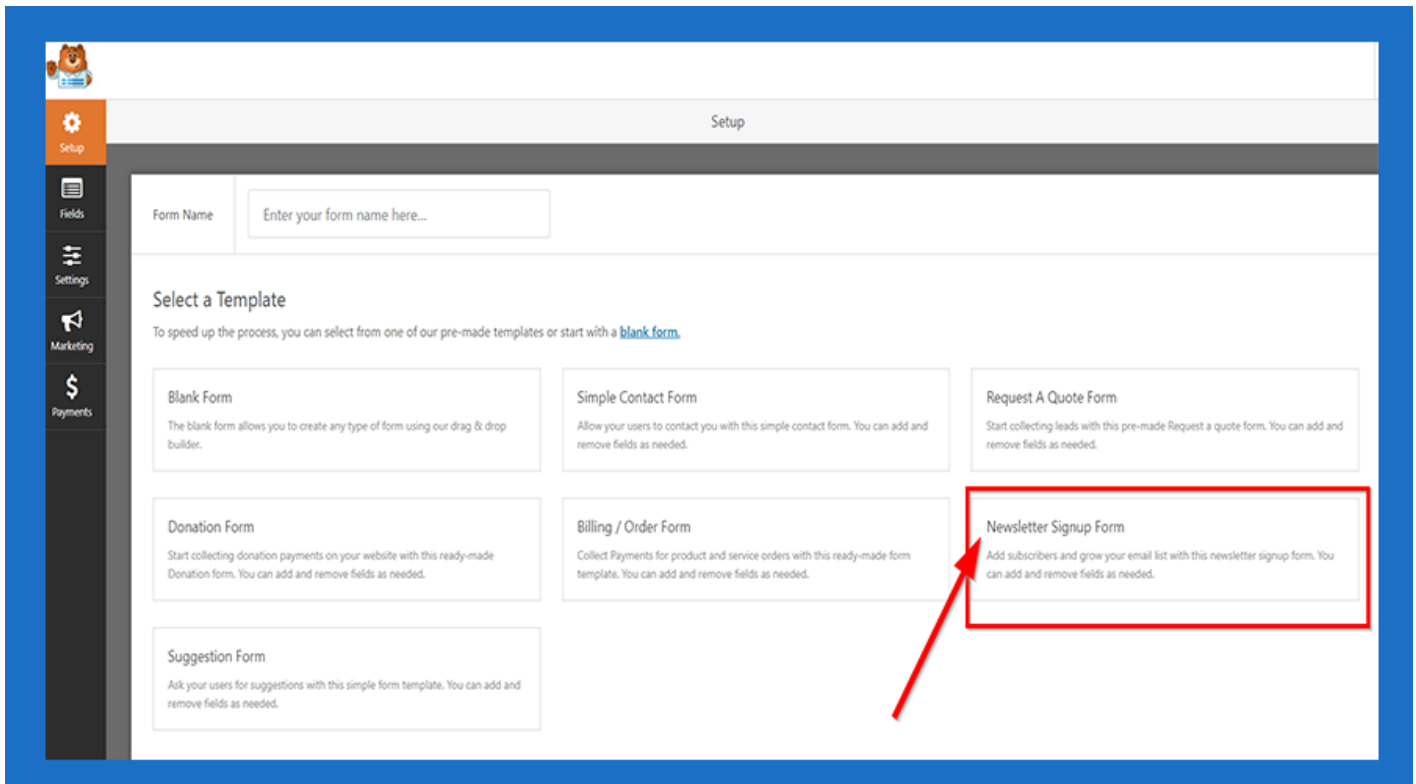

- [Wpforms Integration](#)
- [Track first \(utm\) attributions in WP Forms](#)

# Wpforms Integration

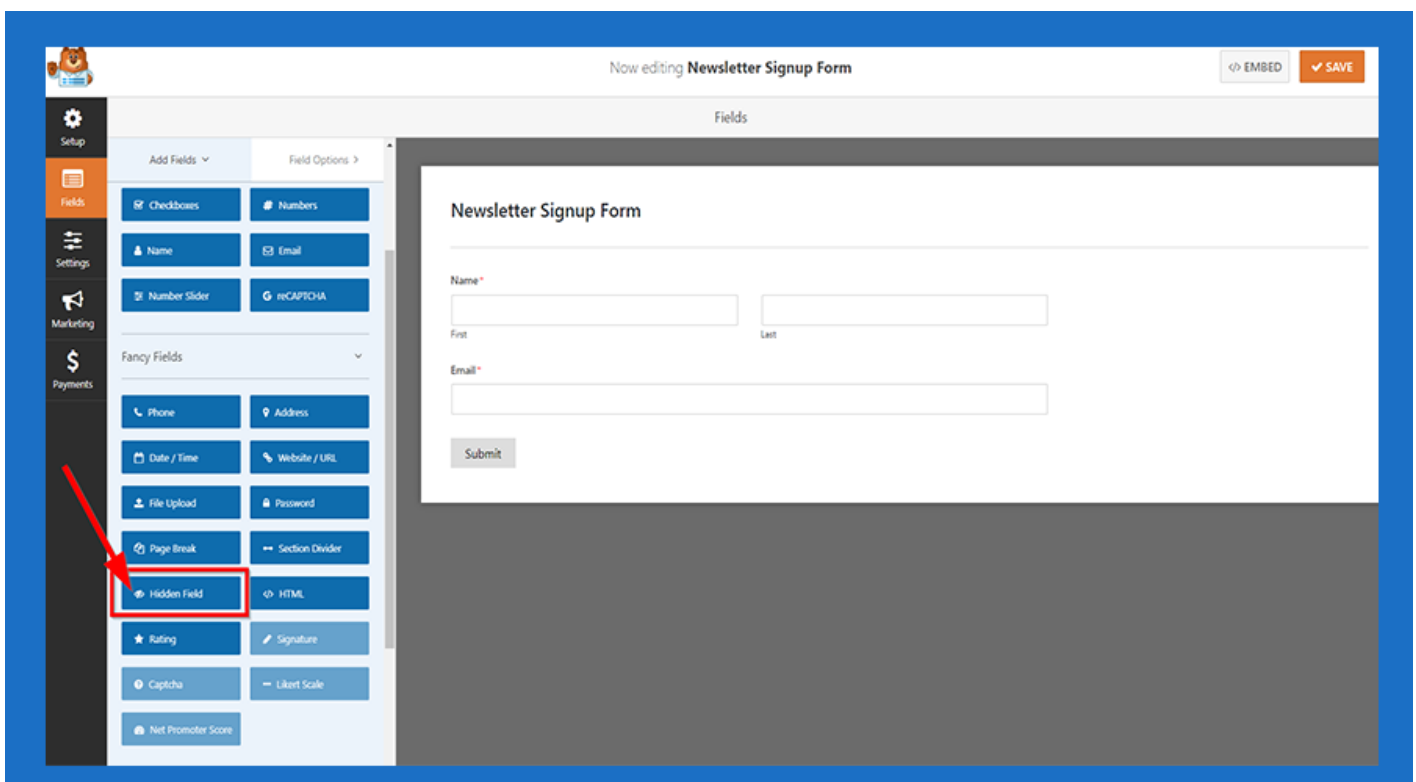

**1. Select WPForms from the left manu and then click 'Add New'**

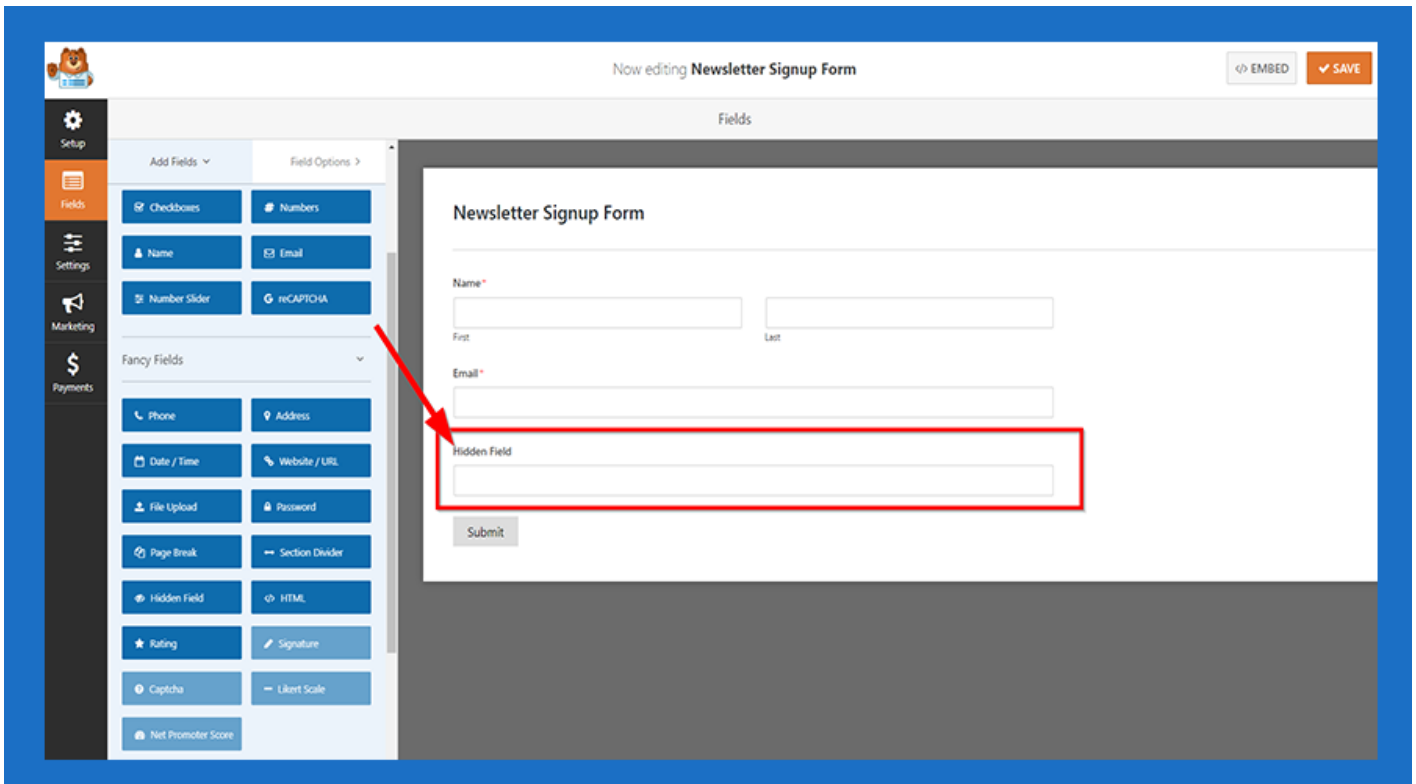

**2. Click 'Newsletter Sign Up Form'**

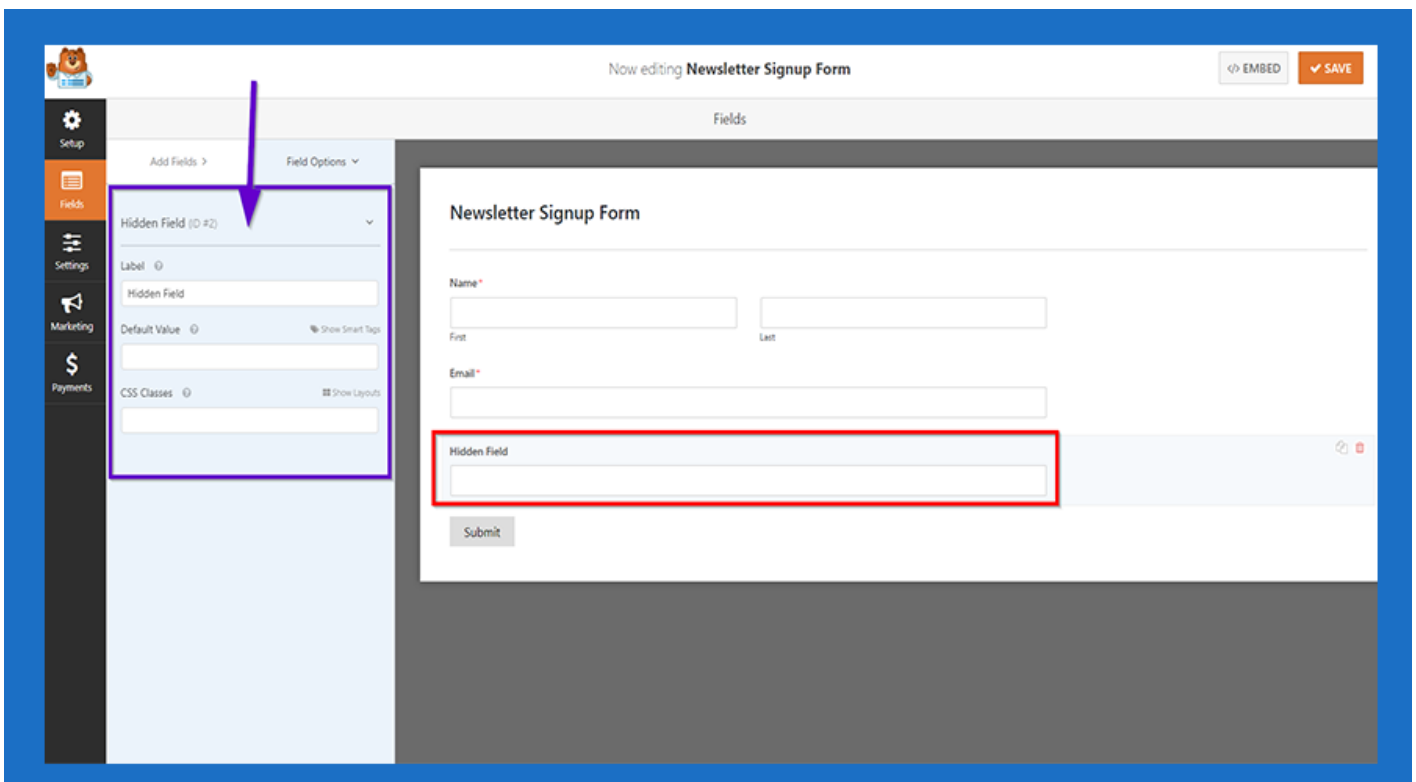

### 3. Click 'Hidden Field' Button

### 4. Hidden Field shows at the bottom of the form

**5. Click 'Hidden Field' and then a menu shows at the left side the form**

## 6. Give a name for your Hidden Field and then Click the 'Show Smart Tag'

The screenshot shows the 'Newsletter Signup Form' editor. On the left, a sidebar contains icons for Setup, Fields, Settings, Marketing, and Payments. The 'Fields' tab is active, showing a list of fields. A red box highlights the 'Label' field, which contains the text 'UTM Campaign'. A purple arrow points from the 'Label' field to the 'Show Smart Tag' button. The main area displays the form layout with fields for Name (First and Last), Email, and UTM Campaign. The 'Submit' button is at the bottom.

Submit

## 7. Scroll Down the menu and choose your value from the list

## 7.5.Add Class Variable After The Name

If you are adding `utm_campaign`, add the class variable as `utm_campaign` as well. This will enable client-side tracking to function properly, which is particularly helpful if caching is enabled on your site.

# Track first (utm) attributions in WP Forms

First attributions parameters are not showing up in smart tags in WP Form? or you want to include more custom parameters in WP Forms? follow this tutorial...

First add all the first attribution parameters as custom parameters

The screenshot shows the 'Custom Fields' tab in the WP Forms settings. It lists five custom parameters, each with a text input field containing a UTM parameter name. A 'Save Changes' button is located at the bottom left.

Custom Param 1	first_utm_campaign
Custom Param 2	first_utm_source
Custom Param 3	first_utm_medium
Custom Param 4	first_utm_term
Custom Param 5	first_utm_content

Save Changes

They will show in Smart Tags
