

Collect UTMs in YITH (Native Integration)

This is only supported in V3.

There is no setup required for this :)

After quote is taken by a user, all the UTMs will appear in WooCommerce on order page.

The screenshot displays the WooCommerce 'Order #66 details' page. The left sidebar contains navigation links: Posts, Media, Pages, Comments, WooCommerce (active), Home, Orders (2), Customers, Coupons, Reports, Settings, Status, Extensions, Products, Analytics, Marketing, Appearance, Plugins, Users, Tools, Settings, UTM, and Collapse menu. The main content area is divided into three tabs: General, Billing, and Shipping. The General tab is active, showing order details: Date created (2020-08-28), Status (Completed), Customer (Guest), and Billing information (John Doe, Acme Inc., 100 Main Street, Austin, TX 78928, United States (US), Email: test@example.com, Phone: 5122002020). The Shipping tab shows 'No shipping address set.' Below the tabs is a table with one item, 'Test Product', priced at £5.00. The right sidebar contains 'Order actions' (Move to Trash, Update) and a section titled 'HandL UTM Grabber V3' which lists various UTM parameters and their values, including Utm Source, Utm Medium, Utm Term, Utm Content, Utm Campaign, Gclid, HandL Original Ref, HandL Landing Page, HandL lp, HandL Ref, HandL Uri, Email, Username, Gaclientid, and Organic Source.

Order #66 details
